Re: Disposal of Large Household Items

- A. Large household items may only be dumped at the dumpster behind the rental office. Please call 845-561-4190 ext. 0 # to schedule.
- B. Disposing of items at or beside residential trash bins is strictly prohibited.
- C. Disposing of large items at the residential trash bins or dumpster by office without permission will result in fines of up to \$225.00 per item.

Due to the constant dumping of furniture and other large household items at our dumpsters we are now allowing for dumping FOR RESIDENTS ONLY of your household items into our dumpster (next to the office) for a nominal fee.

There are no rental housing complexes that allow for residents to place large household items out for trash without understanding you would incur a charge.

The dumpster next to the office can be used by you for the purpose of getting rid of unwanted furniture and/or large household items. You would need to contact the rental office, explain what you need to dispose of in the dumpster and a small fee (extremely less than if you were to pay for it yourself) that you will need to pay at time of disposal.

Thank you for your cooperation with this new procedure at Lake Street Apartments.
